### **A Little about the Presenter:**

Amanda Henderson is Nursing Director (Research), at Princess Alexandra Hospital, in Metro South, Brisbane.

She has an extensive career in nursing practice, education, research and leadership in both academic and clinical settings. Her interests are focused around practice improvement through drawing on sound evidence and optimising effective implementation and adoption. She works with a broad range of health care disciplines; She is Professor in Faculty of Nursing, Midwifery and Social Sciences at Central Queensland University, and holds the Clinical Title of Professor in School of Medicine at University of Queensland. She is also a National Senior Teaching Fellow with the Office for Learning and Teaching, Canberra.

She has over 160 publications in international referred journals, primarily in workplace learning, learning environments and practice change. She is an editor for Journal of Nursing Management and recently authored a book “Communication in Health Care Practice”, published by Oxford University Press.
